## KAREKARE BEACH RACES

What a great day it was!!!

The first official day of summer and the best of weather.

The event was very successful with the volunteer groups involved netting over \$6000 between them.

A big thank you from the organising committee to all the locals who turned out to help - it could not be done without you and shows what a fantastic community we have here at Karekare. The setting up, parking, programme selling and cleaning up was accomplished much quicker this year with the help of the volunteers—these jobs are usually arduous and this year seemed not so bad.

Congratulations to the local riders who won races - Kim rode an amazing race on Sparky in the 700m event with the tightest of turns at the barrels and Freya won her first event with Frances in the locals race.

## KKRRT Chairpersons Report

There has been good debate about the best time for holding the AGM of the KKRRT. In light of the feedback received, the committee has decided to hold next year's AGM on a Friday evening in April at the Fire Station (probably the 18th, the last Friday of the school holidays). Radical stuff; new date, new time, new venue! We are confident that we will enjoy a strong turnout for our AGM at that time.

Race Day was a great success. Third time lucky for the date. Perfect weather, no major disasters and one-or-two thrilling finishes to races. I have to say that I particularly enjoy seeing all the widely various strands

of our diverse community pulling together for a common purpose at Race Day. We are a varied assortment who make up this community but all brought together by our love of Kare Kare. Congratulations to everyone involved, it's hard work, but a lot of fun.

## December Clean Up
